--ABSTRACT OF THE DISCLOSURE

~~BR~~ 3 The invention relates to a telephone system and a method of installing a terminal in the telephone system comprising a number of terminals and a management system which controls and monitors the operation of the terminals having device-specific operational parameters set by the management system. To enable swift installation of the terminals, when a new terminal is put to use in the system for the first time, the terminal sends the management system a message indicating the terminal in question, and the management system starts controlling the terminal and
